

FACEplan

Your personal plan for
anti-ageing cosmetic
treatments and
prescription skincare

Everyone is unique; we all have different features, skin conditions and facial movements. To achieve and maintain the best results for looking good and feeling great your cosmetic treatments should be as individual as you are.

Many skin treatments are non-permanent; to maintain their effect they need to be repeated at regular intervals.

With FACEplan your practitioner will be free to schedule the most appropriate and effective treatments as and when you need them.

Join today to save at least 20%

FACEplan is a pre-payment scheme, tailor-made to provide you with the most beneficial treatments when they are needed. This not only saves money but enables the planning of your treatments for better long term results. All FACEplan treatments are discounted by at least 20%.

Choice benefits

Your personal FACEplan includes Choice benefits, they are specific to you and will be recommended by the practitioner. The average FACEplan saving on these treatments is at least 20%.

Dermal fillers

Dermal filler treatments temporarily smooth folds and wrinkles by restoring facial volume. Dermal fillers are used for nose-to-mouth and mouth-corner lines, frown lines and other lines and furrows in the face. Dermal fillers are also used for lip contouring and fullness.

Muscle relaxing injections

Botox®, Vistabel® or Dysport® injections have the effect of causing the facial muscles to relax. This softens the lines and wrinkles that are formed by muscle activity such as frown lines, crow's feet and forehead lines

Additional Choice benefits

Your practitioner may recommend Choice treatments that are not in this brochure, such as medical skin peels and MTS roller treatment. Full details will be provided.
